FCC Form 481

Line 112- Service Quality Improvement Reporting {47 CFR 54.313(a)(1)}

1. In the FCC's Public Notice DA 14-951, released May 1, 2014, the FCC waived the requirement for price cap ETCs to file a five-year plan. The bureau stated that "until the [Connect America Phase II forward-looking] cost model is adopted and incumbents have the opportunity to accept a state-level commitment, it does not serve the public interest" to require price cap ETCs to file five-year plans.¹

¹ Connect America Fund et al. WC Docket No. 10-90 et al., Order, 28 FCC Rcd 2051, 2054, para. 8 (Wireline Comp. Bur. 2013) (ETC Reporting Requirements Order).

Odin Telephone Company Illinois 341065

Line 510: Service Quality Reporting/Consumer Protection Rules Compliance

Odin Telephone Company, hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Illinois Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with customer Inquiry procedure as identified in the Code of State Regulations, compliance with Dispute standards as identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its 2005 ETC Order,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers." ² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."³

C-R Telephone Company, The El Paso Telephone Company, and Odin Telephone Exchange d/b/a FairPoint Communications are subject to Service Quality standards in Illinois. The following measurements are monitored: Installation of basic local exchange service, Restoration of basic local exchange service, and repair and installation appointments for basic local exchange service. Customers are credited by the Provider for violations of basic local exchange service quality standards. The rules require each telecommunications carrier to provide to the Commission, on a quarterly basis and in a form suitable for posting on the Commission's website, a public report that includes performance data for basic local exchange service quality of service.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at consumer@fairpoint.com. The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

¹ Federal-State Joint Board on Universal Service, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("2005 ETC Order").

Business Continuity Plan Overview

Introduction

FairPoint Communications, Inc. ("FairPoint") is committed to maintaining a vigilant state of disaster preparedness for the interests of our customers, stockholders, employees and other critical stakeholders.

The purpose of our Business Continuity Plan ("BCP") is to define the disaster preparedness and recovery protocols and procedures required to restore FairPoint's critical business support functions, inside and outside plant systems and operations within FairPoint's operating footprint.

BCP components detail FairPoint's procedures for preparing for and responding to an emergency situation affecting our ability to deliver core services to our customers and our ability to meet legal dictates, and regulatory requirements.

This document discusses the following:

- BCP Scope
- BCP Components
- Plan Maintenance

BCP Scope

FairPoint's business continuity response planning is concentrated on two critical operational areas:

- <u>Customer Interfacing</u> It is recognized that a "business impact" only occurs when an <u>external-interfacing</u> element is disrupted. In essence, this means that if FairPoint experiences a disruptive event, but one that does not breach the outer-shell of the FairPoint operation and interrupt critical customer services, customer product or other external end-user, then it does not have a business impact, as defined by the BCP
- Infrastructure Integrity Without critical infrastructure systems, the ability for all other FairPoint business operations (back / front office) can come to a halt. It is these infrastructure systems that provide the critical human-factor of our customer-interfacing services. Critical infrastructure would address such services / systems as, building space for staff and equipment, service utilities, telecommunications and data network, IT network, and related infrastructure based items.

The BCP has been developed to assure the continuity of critical customer interfacing services and systems should a physical incident or workforce disruption event occur, which affects:

- Information Technology ("IT")
- Administrative and Support Operations
- Inside and Outside Plant Operations
- Network Operations Center ("NOC")
- Enhanced 9-1-1 ("E-911")
- Dispatch
- Repair Center

FairPoint has developed response / recovery strategies addressing physically disruptive incidents and workforce related disruptive incidents. All response strategies are based on recovery time objectives of those department functions and critical infrastructure systems essential to sustain customer interfacing services.

FairPoint Communications 1 Davis Farm Road Portland, ME 04103

BCP Components

The BCP consists of several components:

- Operational Preparedness for Expected Events (i.e. weather related events)
- Event / Crisis Communication Plan
- Redundancy Mapping
- Department Recovery Plans
- Information Technology Continuity Plan

The following is a brief summary of the plan components.

Operational Preparedness for Expected Events

Weather events such snow, ice and wind can negatively impact power and communications infrastructure. While this threat cannot be eliminated, FairPoint takes steps to mitigate a storm's impact through preparedness and response. Steps include:

- Pre-event planning based on information provided by National Oceanic and Atmospheric Administration ("NOAA")
- Coordinate planning and recovery efforts through state emergency management groups
- Engage supply chain vendors to delivery additional stock prior to the expected event
- Inspect, test and fuel emergency generators in anticipation of a power outage
- Reallocate / relocate staff in order to respond to the pending event

Event / Crisis Communication Plan

Communications is a key element to respond and recover business operations. Event / Crisis Communications are facilitated by FairPoint's Risk Management Team who assume the role of incident command from the onset of the event until normal operations are resumed.

FairPoint uses a dual level communication strategy as part the Event Communication Plan. The primary level is the workgroup comprised of both employees and vendors that are directly involved in the recovery work. The secondary level consists of internal interested parties made up of our Strategic Leadership Team. The role of the secondary level is to facilitate communications both internally and externally regarding the event and our path to response and recovery. For 2014, FairPoint has partnered with SunGard and will be deploying a hosted event communication platform in order increase our speed and reach of communications during an event.

Redundancy Mapping

The process of redundancy mapping reviews operations within the FairPoint organization to identify alternate facilities and work locations that can be used in the event a primary location is not accessible. Given the geographic spread of FairPoint's Northern New England footprint, capabilities exist to relocate operations from event impacted areas. Through the mapping process, FairPoint is able to identify single points of failure and develop alternative work processes.

Department Recovery Plans

Each department has developed a recovery plan based on its critical operations as they pertain to the deliverables they contribute to our customers. FairPoint has triaged the recovery efforts based on the concept of customer servicing impact. Federal and State regulatory requirements, along with E-911 needs, have a high level of consideration in addition to the business impact concerns. The BCP goal is to minimize the disruption duration as much as is practical and provide a level of risk mitigation that will maintain critical operations. The recovery plans are built around a 24hour to 72hours response plan. This methodology

CONFIDENTIAL INFORMATION — SUBJECT TO THIRD PROTECTIVE ORDER IN WC DOCKET NOS. 10-90, 07-135, 05-337, 03-109, GN DOCKET NO. 09-51,CC DOCKET NOS. 01-92, 96-45, WT DOCKET NO. 10-208 BEFORE THE FEDERAL COMMUNICATIONS COMMISSION

FairPoint Communications 1 Davis Farm Road Portland, ME 04103

focuses on the immediate steps that need to be taken to recover functional operations within short duration events (less than 24 hours) and well as long term plans to maintain functionality during an extended event (up to, or greater than 72 hours).

IT Recovery Plan

Like most operations, FairPoint is dependent on an IT infrastructure to conduct business and serve customers. Because of its importance, FairPoint has a continuity plan established specifically for IT operations. The IT continuity plan addresses security and access control of data sites, onsite / offsite data backup methods, processes for sequencing of system(s) recoveries and ultimately the use and execution of our established Disaster Recovery Site located outside the FairPoint footprint.

Plan Maintenance and Exercising

The BCP is a so called "living" document. Updates to the plan are ongoing with changes incorporated annually at a minimum. Individual plan components are reviewed with oversight from FairPoint's Risk Management Team. In 2013, FairPoint began the process of migrating the BCP onto a cloud based solution which will allow access to the plan components from any computer, smartphone and tablet.

FCC FORM 481

Line 1010 - Voice Service Rate Comparability

The pricing of the company's voice service rate is no more than two standard deviations above the applicable national average urban rate for voice service, as specified in the most recent public notice, FCC DA15-470 released on April 16, 2015.

For Rates See Attachment: (700) Company Price Offerings (voice)

CONFIDENTIAL INFORMATION — SUBJECT TO THIRD PROTECTIVE ORDER IN WC DOCKET NOS. 10-90, 07-135, 05-337, 03-109, GN DOCKET NO. 09-51,CC DOCKET NOS. 01-92, 96-45, WT DOCKET NO. 10-208 BEFORE THE FEDERAL COMMUNICATIONS COMMISSION

Form 481 Line 1210- Terms & Conditions for Lifeline Customers

Odin Telephone Exchange, Inc. provides a Lifeline Program discount for residence service for eligible low income customers. The Lifeline Program discount is applied to any month to month residence local service, package or bundle offering. The discount is intended to offset the Subscriber Line Charge and local line charge, although eligible packages and bundles may have toll calling included in the pricing for the offering.

The tariff pages outlining the terms of the Lifeline Program in Odin Telephone Exchange, Inc are attached. The terms and conditions of residential basic local exchange service, package and bundle offerings can be found at http://www.tariffs.net/fairpoint/tier.asp?cid=1644.

TELEPHONE ASSISTANCE PROGRAMS

15. Telephone Assistance Programs (Cont'd)

- 15.2.1 Universal Telephone Assistance Pro givan (UTSAP) Volumtary Funding
 - A. Customers wishing to participate in the funding of UTSAP may do so by electing to contribute, on a monthly basis, a fixed amount to be included by the company on the customer's monthly bill. The voluntary contribution shall not reduce the customer's total monthly bill amount due the Company for telephone services or other charges.
 - 1. Residential customers may elect to contribute \$.50, \$1.00, \$2.00 or \$5.00 per month.
 - 2. Business customers may elect to contribute \$1.00, \$5.00, \$10.00 or \$25.00 per month.
 - B. Customers may elect to discontinue or change the amount of monthly contribution on their bill at any time upon providing at least 30 days notice to the Company.
 - C. Failure by the customer in any month to remit the entire billed amount shall reduce the UTSAP contribution accorgingly.

15.3 Lifeline Program

- A. General
 - The lifeline Program is a federally funded program established to provide monthly assistance to low income households as described in Title 47 of the Code of Federal Regulations, Section 54. Eligible subscribers may receive a discount on monthly residential local exchange access service of \$2.75. In addition, the Federal Subscriber Line Charge of \$6.50 will be waived for a total monthly credit of \$9.25. A qualified household may receive Lifeline assistance for only one residence access line.
 - A Lifeline applicant must participate in any of the following assistance programs to establish eligibility:
 - a Medicaid
 - b. Supplemental Nutrition Assistance Program, formerly Food Stamps
 - c. Supplemental Security Income (SSI)
 - d. Federal Public Housing Assistance
 - e. Low Income Home Energy Assistance (LIHEAP)
 - f. National School Lunch Program's free lunch program
 - g. Temporary Assistance to Needy Families (TANF)
